

## HOW TO SETUP UPDATE INTERVAL in Rssreader

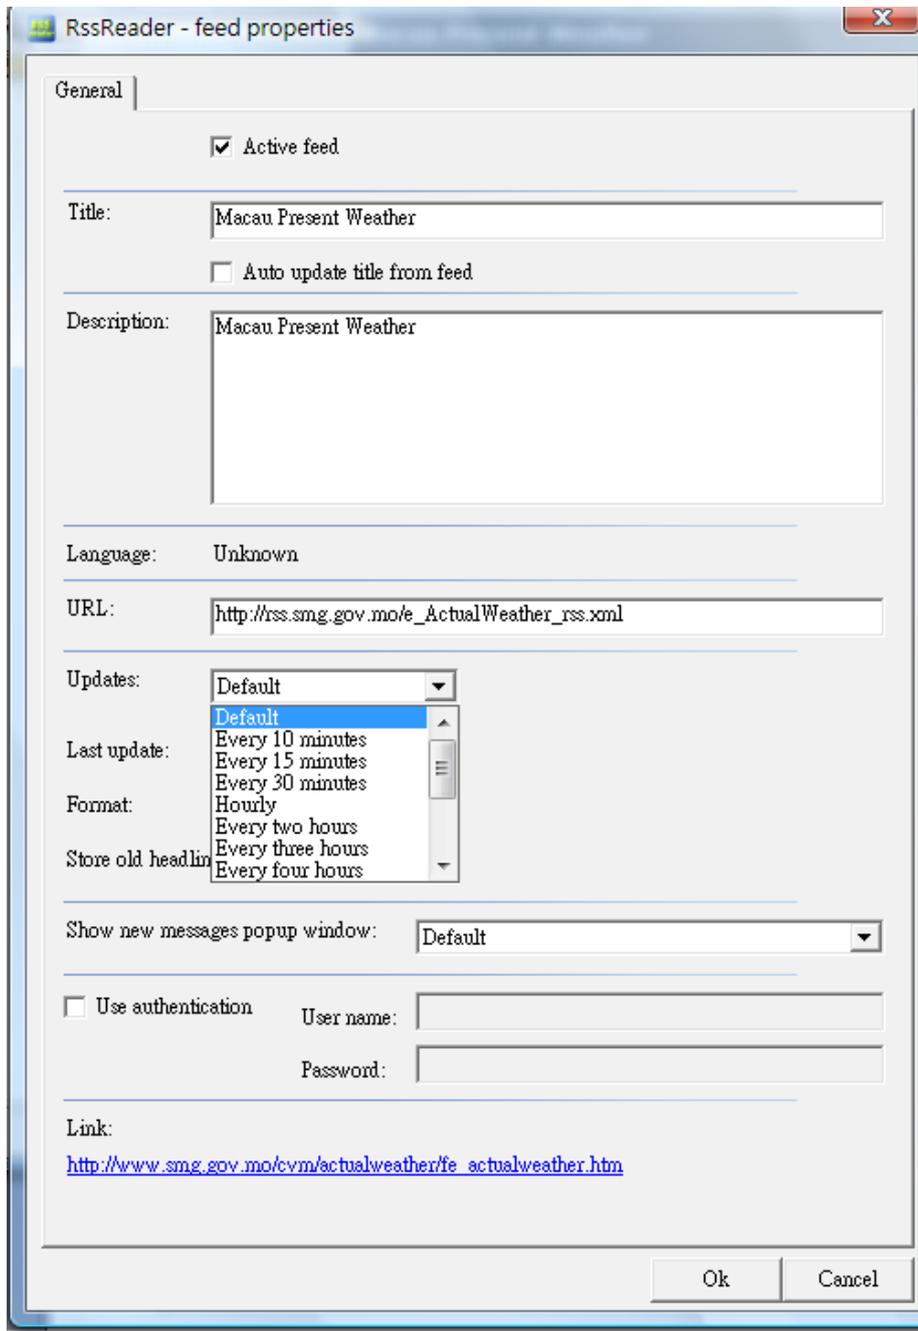

- 1) Open RSSreader,
- 2) Select related feed, for example “Macau Present Weather”,
- 3) Right Click on the feed and select “Feed properties”:

- 4) Select “Updates”:

5) Choose the option you prefer “RSSReader” to check for update of this feed:

Remark: For SMG's Warning Message, we recommend to set feeds to be about 5 minutes, for other weather information like Weather forecast, Actual weather etc., and the update interval should be longer.
